

The Sensationally NEW Low-Priced, High-Speed

PARKS 20" PLANER

THE PARKS No. 20

A modernly designed, low-priced, high-speed 20" x 6" planer that meets the surfacing needs of every type of woodworking shop. Ruggedly built for vibrationless operation—assuring quality work, increased production and low operating costs. Two feed speeds—20 and 40 F.P.M. and 40 and 80 F.P.M. Four-knife cutterhead with speed of 3600 R.P.M.

PARKS 20" PLANER

For more than 60 years Parks has been manufacturing low-cost, high efficiency wood-working machines that have been sold and used all over the civilized world. Every Parks machine made has been designed to bring the high production and accuracy of the finest woodworking tools within the reach of even the smallest shop.

The Parks 20" Planer is a modernly designed, precision-built, sturdy high-speed surfacer. Its range of speeds assures the user a machine that can handle the heaviest type of roughing work or the finest cabinet finish with ease. The machine is sturdily constructed, with a heavy welded base, alloy head, high-speed knives and hardened gears that enable the operator to run the planer at full capacity at all times. The high rate feed makes it ideal for use with other tools in any high production line for the fabrication of wood.

SPECIFICATIONS

BED — Semi-steel, close-grained casting supported by large anti-friction thrust bearings.

CUTTERHEAD — 4-knife round head of alloy steel with a cutting circle of 4 1/4". Mounted on heavy-duty ball bearings.

SPEED — 3600 R.P.M.

FRAME — Combines the best features of steel fabrication and semi-steel castings for sturdiness and greater rigidity.

RATES OF FEED — 20 and 40 F.P.M., or 40 and 80 F.P.M.

POWER — 3 to 10 H.P.

CAPACITY — 20" wide x 6" thick. Will take 3/8" cut.

OVERALL HEIGHT — 47".

TABLE DIMENSIONS — 34" x 20" wide.

BASE DIMENSIONS — 36" x 41".

SHIPPING WEIGHT — 1425 pounds.

MOTOR CONTROLS and

KNIFE GRINDER

available as optional equipment.
